

Amezcua Bio Disc

Thank you for buying and investing in the Amezcua Bio Disc. Your faith in using this product should bring you personal wellness benefits.

- Product benefits:

The Amezcua Bio Disc has been evaluated and certified by the following institutions:

I.H.M. Institute, Japan

Research has pointed that there is a correlation between the formation of water crystals and the quality of water, in terms of degree of pollution. In recent I.H.M institute research, it became clear that energy can affect the formation of the water crystal. Thus, the water crystal formation reflects not only physical but informational or energetic aspect of the water. Water samples with a good balance of minerals and energy tend to produce beautifully-formed crystals.

A water crystal experiment done at the institute has shown that water treated with Amezcua Bio Disc produces more beautiful and good water crystals as compared to normal distilled water. The treated water also has less “depressed” water crystals.

The I.H.M. Institute in Japan was founded by Dr Masaru Emoto, a Doctor of Alternative Medicine. Dr Emoto achieved international acclaim through his extensive research of water around the world. He is also the President Emeritus of the International Water for Life Foundation.

Dr. med. Manfred Doepp, Germany

The effects of Amezcua Bio Disc on the quality of water and the bio-energetic state of the human body are tested by Dr Manfred Doepp at the Holistic Center in Germany, using meridian diagnostics. The test result shows that Amezcua Bio Disc has a successful operational area in the energetic-informational treatments of liquids and water containing nutrients.

The result shows that the Amezcua Bio Disc is able to convert the negative effects of tap water into positive effects. Water treated with the Amezcua Bio Disc has an increased level of energy and harmony. Test results also reveal that when the Amezcua Bio Disc is held by the testers, their energy and harmony levels showed a significant increase.

Dr. med. Manfred Doepp is a member of the Board of the German Society for Energy and Information Medicine e.V., Stuttgart. He is also a reviewer of the following societies: International Society on Systemics, Cybernetics and Informatics, and International Society on Computer, Communication and Control Technologies.

PROGNOS, Germany

Tests run by the PROGNOS machine has shown that the Amezcua Bio Disc possesses a positive energy field. Results from the system have shown that after drinking water treated with the Amezcua Bio Disc, the tester’s energy levels has increased and disharmony of his meridian system is reduced.

PROGNOS is a diagnostic and therapy system based on Traditional Medicine which uses a painless method to create a picture of the energetic state of the body. This is measured through the subject’s meridian system, or the energy courses of the human body. PROGNOS and its

manufacturer MedPrevent has been accredited with EC and ISO certifications by the EUROCAT Institute for Certification and Testing.

PSB Laboratory, Singapore

The results show, after treatment by Amezcua Bio Disc, surface tension value of the treated water has been reduced. Reduced surface tension renders the water more bio-available, thus improving the transfer of nutrients in and out through the walls of the cells.

PSB test reports are widely recognised by manufacturers, third party buyers and government authorities in Singapore. Its laboratories are also accredited under the Singapore Accreditation Council - Singapore Laboratory Accreditation Scheme (SINGLAS) to ISO17025.

SCHOTT AG, Germany

The Amezcua Bio Disc glass is manufactured in the SCHOTT AG facility in Germany. SCHOTT AG has achieved the EN ISO 9001:2000 standards for its quality management system.
