

Testimonial from Lilian Chua, Singapore

During the launch of the Bio Disc in May, I went to KL with one of my down lines. After seeing the demo of the Bio Disc by Ian, I was doubtful of the effects and had many questions about the claims. Many of my down lines who went to the launch were also doubtful of this new product and vouched that they would never believe in this 'piece of glass'.

However, Thomas happened to buy two Bio Discs and let me have one to try. I started to experiment with this new product, energizing all my drinking water and also sleeping with it under my bed. I realized that I was no longer drinking coffee in the afternoons to keep myself awake anymore.

Previously, I usually felt very tired in the afternoons and would have to drink coffee to keep me going through the day. I used to drink 4 to 5 cups of coffee a day and very often had severe headaches and migraines due to stress. I had to go for a massage once every month. However, after drinking Bio water for two weeks, I started to notice that I no longer had headaches and migraines as often and need not have to go for body massages any more since May. I started to share the goodness of the Bio Disc with my down lines and encouraged all of them to buy and try this wonderful product. They trusted my recommendation and bought the Bio Disc to try and all of them ended up very happy with the results.

I continued to experiment using the Bio Disc with vegetable and found that it removed the smelly chemical smells from vegetables, especially broccoli. I used Bio water to cook rice and found that the leftover rice didn't turn bad even when I had left it overnight without putting it in the fridge.

The Bio Disc also helped my complexion. The pigmentation on my skin seemed to lighten due to improved blood circulation and the generation of new cells. My skin seems younger and firmer now.

I placed my hair dye on the Bio Disc when coloring my hair and found that my scalp didn't itch as much as it used to because of the chemicals from the hair dye. Usually, my head would itch for one week after I coloured my hair. Also I find that even without using any conditioner for my hair, the colour does not run or fade. My hair is also softer and smoother.

Once, I injured my toe. It was very painful as the toe bones were injured. I used the Bio Disc with the torchlight to help disperse the blood clot and was surprised that the bruises caused by the blood clot totally dispersed the next day.

When I apply my foundation on the Bio Disc before I put on my make up, I find that my foundation stays the whole day without getting patchy, as my skin is very oily in nature.

I strongly recommend the Bio Disc to everyone and think you will be surprised with what this 'piece of glass' can do.

Yours truly,
Lilian Chua

Testimonial from Julie Ying Singapore

Why did I buy Bio Disc?

Because of my breathing problem. They said the disc can create energy and can maybe help me solve it. So I bought one and tried it.

One day while sitting down and reading my newspaper, I suddenly felt very uncomfortable. I couldn't breathe and so I used the disc and placed it on my chest, slowly feel better.

I drink the Bio water everyday and place the disc under my bed every night. When I wake up in the morning my body feels very light & fresh. I also had backache and skin problems. During the night when I sleep, my skin always felt very itchy. Now, my backache problem is much better and my skin no longer feels itchy and has become smooth. Also my breathing problem has been solved.

I can feel it improving my health.

Thank you.

Testimonial from Ivy How Singapore

Why did I buy this Bio Disc?

I bought it for my mum to use

Problems:

Because both my mother's legs get cramps every morning and her palms are always cold like ice. She always gets a sore throat and ulcers in her mouth. She doesn't like to drink water because she doesn't like the taste of the water. Every night her skin feels itchy and she will scratch herself.

Results:

After using Bio Disc for 2 months, she doesn't feel her legs cramp as often. Now her palms feel warm and she doesn't get sore throats and ulcers in her mouth. She now drinks a lot of water everyday because she finds that water tastes better and her skin doesn't feel itchy anymore.

Testimonial from Florence Koh Singapore

My sister's name is Koh Geok Eng. She has been suffering from many illness such as high blood pressure, diabetes, dry skin, varicose veins, body aches and obesity for more than 20 years (previously around 95 kg and now reduced to 80kg after taking slimming pills prescribed by doctors, for the past six months).

On 7/8/06, I visited her and made a few pails of Bio Water for her to drink and bathe in, preparing quantities enough to last her a week. When I made my 2nd visit to her on 16/8/06(9 days later) to make more Bio Water for her, I saw the following results on her.

1. Her skin was not so dry.
2. Co-incidentally, she had a severe headache during my 2nd visit so I used a torch with strong beam light to shine on her forehead and the top of her head in an anti-clockwise direction. After around 10 mins, her pains subsided. Thereafter, she asked me to treat her varicose veins pain on both her thighs. I used the above method to shine around 10 minutes on each of her thighs. Gradually, her overlapping veins were loosened and the pain was relieved.

I feel that Bio Disc can help the above ailments and would like to share its benefits with everybody.

Testimonial from Jenny Chow Singapore

Below is my testimonial of using Bio Disc.

- 1) I have sore throats almost every week. However, after drinking the bio water the pain has lessened.
- 2) I have dreams every night. After putting the bio disc under my bed, I am getting better sleep, although I am still having dreams.

- 3) I was carrying heavy files and sprained my left wrist. After a day, I felt the pain, I remember Ivy saying, after using the bio disc, that the pain on her wrist had been reduced. So I used the same method of moving the disc in an anti-clockwise direction and within five minutes, I didn't feel the pain anymore. Until now, two weeks later, I don't feel the pain unless I press on my wrist.
- 4) My skin has become smoother after drinking the bio water.
- 5) Sometimes when I have shoulder or neck aches, I will use Bio Disc, turning it in an anti-clockwise movement and lightening the pain.
- 6) Normally I feel tired, with little strength, when I wake up in the morning. However after taking a bath with bio disc, I feel more energized.
- 7) I poured the Bio water into a bowl of green plants and surprisingly, the color of the green plant became greener than it used to be.
- 8) When I drink coffee with the bio water, the taste becomes smoother and better.

Testimonial from Jiraporn Pavitpok Singapore

I, Jiraporn Pavitpok would like to share with you about the Bio Disc. It's really a miracle.

- 1) Can make hair softer after shampooing. My son, 17 years old is so unhappy with his hair texture. It's hard and stiff like a brush. The hair stylist recommended him some hair cream to apply but this didn't work. Now he bathes with the Bio Disc water everyday. He notices that his hair is softer and easier to style. Three weeks later, he went to see the same hair stylist. He's also very surprised to see the changes.
- 2) Can make you love to drink water more. My daughter, 13 years old, hated to drink plain water because it's tasteless. I explained to her that Bio Disc water is energy water that can enhance the taste and make her skin smooth and radiant. She believed me. After drinking the Bio Disc water, she asks for more. She said the water tastes so nice and feels like it drinking more and more. Now, her face is very fresh, less pimply, more shiny and has a healthy look.
- 3) Can make you feel fresh after washing your face. When I wake up in the morning. I still feel sleepy. I wash my face with Bio Disc water and suddenly, I feel fresh and have energy to work.
- 4) I bathe my pet rabbit with the Bio Disc water. Oh! I get the same result. Its fur is so soft and very nice to touch.

It's unbelievable! It's a miracle!

Testimonial from Annie Koh Singapore

My name is Annie Koh. Previously, I had very dry, wrinkled, saggy skin and also large patches of dark-brown pigmentation on my face, arms & legs.

Although I had the above problems for more than 5 years, I didn't want to waste any more money on health and beauty products to treat them as I had already lost faith in those products. Some time at the end of June 06, my sister bought a Bio Disc and started to make Bio Water for me to drink and bathe with daily. After using the Bio Water for around 2 weeks, I noticed my skin was less dry and wrinkled.

Before I knew about Bio Disc, I had been seeking treatment from western doctors (4 times) and chinese physicians (5 times) for more than 3 months for throat pains and bad coughs but my condition did not improve much even after so many treatments. When I started to use Bio Water at the end of June 06, I was still on Chinese medication so I took the medicine with Bio Water. About one week later, my throat pain was gone and my cough condition also recovered a few days after.

Due to the amazing results in just two weeks, I decided to buy a Bio Disc. Up-to-date, I have used the Bio Disc for almost 3 months. The dark-brown pigmentation on my face, arms & leg have been lightened and the patches have also been reduced in size. My skin is not so dry and wrinkled and its tone is more even and less saggy now.

In addition to the above, my sister told me that I snored very loudly when asleep. She had tried for a few nights placing the Bio Disc under my bed to prove its effect. After half an hour, she noticed that my snoring had been reduced to just breathing sounds. I am so glad that this Disc solved my embarrassing situation when I am on tour with my friends.

The Bio Disc has had fantastic results on me so I eagerly want to share my testimonial with all the users.

Annie Koh

Date : 19th Sep 2006.

Testimonial from Florence Koh Singapore

My name is Florence Koh, I had dark pigmentation on both cheeks and dry skin on my face, hands and legs for more than 10 years due to my frequent exposure to sunlight while working. I had stopped working since July 2003 but my pigmentation and dry skin condition did not improve. On July 2005, I decided to try another type of skin care product. My pigmentation

condition improved after using them for one year but at a slow pace. I see rapid improvement in my skin only after using the skin care products with Bio Disc.

On 19th June 2006, I started to use the Bio Disc. Initially, I noticed that I got thirsty very easily and can drink more than 8 cups of water/liquid each day and my stomach lets out a lot of non-smelly air, which didn't happen to me previously. Due to the obvious changes to my body system in just a week, I started to explore its benefits. Personally, I had tested the following benefits: -

1) Once, I experienced left-chest pains so I placed the Bio Disc on the affected area and the pains were gone unknowingly. I had totally forgotten about the Disc on my chest and had broken it accidentally. As I wanted to benefit more from it, I bought another one.

2) I had a bottle of chilli padi paste which was too spicy for me. As Bio Disc can help to lock the chlorine smell/taste in drinking tap water, I tried rotating the chilli paste's bottle around the Disc for approximately 1 minute. Now I can eat the chilli padi paste without sweating/crying.

3) Two months ago, I had two plants in dying conditions. I removed them from the pot of soil and soaked it in Bio Water. After 5 days, the plants became alive and the leaves were growing fast/spreading out healthily. Today, they are still thriving.

4) On 17th Sep 2006 night, a small portion of my outer lip suddenly swelled. I immediately washed my mouth with Bio Water and applied ulcer gel onto the swollen area. Then, I used the Bio Disc to rotate round the swelled area in anti-clockwise direction for around 10 minutes. Surprisingly, the swollen portion had deflated by the next morning when I woke up. Normally my swelling, even after applying ulcer gel, will remain bulged-out for a few days before recovering to its original state.

5) After using the Bio Disc for three months, I noticed that the pigmentation problem on my face is 80% cleared. My skin tone is more even now. The skin on my arms and legs are not so dry and the unsightly dark pigmentation marks have become lighter.

I would like to share my findings and testimonial with all Bio Disc's users as everyone will benefit from it differently.

Happy Customer,
Florence Koh
20th September 2006.

Testimonial from Jasmine Foo Singapore

My name is Jasmine Foo. I heard about Bio Disc at the end of June 06 but I didn't believe that that small piece of glass could do the wonders as stated in its pamphlet. During one of the gatherings at the end of July 06, I met a few friends whose had been using the Bio Disc. I noticed tremendous changes in them. Their skin was not so dry and dark pigmentation areas

were lighter. They also shared their other benefits with me. I then decided to buy the Bio Disc to benefit my family.

On 1st of August 2006, I started to use the Bio Disc. After using for more than six weeks, the obvious benefits for my mother and myself are as follows: -

My Mum's Testimonial

1) Her skin is not so dry and her dark brown spots/patches on her face & hands are getting lighter in color.

2) Once she complained about headache. So I used the torchlight and rotated it around the Bio Disc in an anti-clockwise direction at the affected area. It took only 5 minutes before she said the pain had subsided.

My Testimonial

1) After using it for 2 days, I noticed that a lot of mucus (very watery type) flowed out from my nose whenever I sneezed. This situation occurred continuously for a few days and since then, it has not occurred again. I am glad that Bio Water has also improved my immunity, as I did not get flu since then, as compared to the past, which was almost every few weeks.

2) I had constipation problems for many years. Before using Bio Water, I could usually clear my system around every 3 days. Now my constipation situation has abated and the faeces are in a much healthier form.

3) In the past, I drank coffee every morning and had the urge for coffee again in the afternoon. After using Bio Water for around few weeks, I noticed that I don't urge for coffee again in the afternoon as I don't get tired so easily.

I am glad to make this wise decision to buy the Bio Disc as it has improved my mum's and my long existing problems. As such, I hope our testimonials will help others in making their decisions early to gain its benefits.

Testimonial from Laxmidas

The first time we got it, we put it under our water filter without the knowledge of our other family members, all of whom noticed the water being sweet to taste as compared to tasteless water before the Bio Disc. Also the water would be very cold. The biodisc was then put under my mother's bed and she now sleeps very comfortably. Before, she would experience muscle pull/cramps, pains from hip to toe, restlessness, all of which stopped the moment she started having the biodisc under her bed. She is physically and mentally very relaxed, after having a peaceful night's sleep. Three days ago, we had a function which a lot of guests attended and where a lot of food was prepared. Attending to the guests left my mother very tired and with a

stiff neck. I used the biodisc together with a torch (rotating anticlockwise) for about ten minutes. All her neck muscles relaxed and she started breathing without any strain.

At other times, she experiences acute pain from her shoulder to the elbow as well as on her knee(due to osteoporosis) and I do the same treatment of torch + anticlockwise rotation of biodisc and her pain goes away or subsides greatly/ immensely. I personally use this treatment for myself. Being an accountant, I do a lot of eye work so my eyeball hurts for a day or two non-stop (unless I take painkillers) and after doing the torch rotation for about a minute, my pain goes away completely.

I hope our experiences will help our brothers and sisters worldwide to use these great products to their wellbeing/benefit.

Testimonial from Melani Soesiawatie, Indonesia

I'm really happy using BioDisc since I get many benefits from it. I'd like to share my experiences because I feel I have received a blessing from God.

The first time I knew about BioDisc was when I was at the V-Conference in Malaysia on April 2006. Honestly when I heard the presentation in the conference room attended by 2,500 people, I didn't really understand it. I was honoured to be invited to the small 3 hour-briefing. After that, I start understanding the root cause of why people get sick easily. I went through the demo also and I decided to buy BioDisc.

Why did I buy it? Just a simple reason. I have 2 sons, 8 & 3 years. They often get the flu & cough when their friends at school have get it. After that, it's my turn to have that "sweet disease". As a result I have to go to the doctor & spend around \$30/person, equal to \$90 for 3 persons. As I always say, 'getting sick is very expensive'. If I buy this BioDisc for \$370, I can use it to maintain my family's wellness and health for 15 years It's really cheap. That's why I bought it at the V-Conference in Malaysia.

I got back home and used it to treat my drinking water everyday. I always bring it in my bag. When I have lunch or eat at the restaurant, I always treat my beverage as much as I can with BioDisc. (It becomes an energy beverage). After 2 weeks I got amazing results. Here it is:

1. I always have problems after doing exercises on the treadmill. I always feel dizzy, sleepy and faint (which I'm not expecting) after my exercise. That's why I've stopped exercising for years. But after I drink energy water, I never feel dizzy, sleepy or faint anymore. I feel fresh & well after exercising, until this moment.

2. One day after doing exercises, as usual, I continued with swimming. Again I stayed feeling fresh after swimming and didn't feel tired. I realized it when I took a bath.

3. Another improvement. Usually, I always feel tired and faint after driving for a whole day. But now, after drink energy water everyday, I stay feeling fresh.

That's the amazing improvement to my body. I feel that the immune system of my body is getting better & better.

I strongly suggest to everybody to use BioDisc if you really care about your own health and wellness and if you really care about your family's wellness & health.

As I always say GETTING SICK IS REALLY EXPENSIVE. Hope my experience will be a blessing for everybody.

Warm regards from happy customer,
Melani Soesiawatie

Testimony: Vera Lucia Frutuoso - Brazil

In December of 2004, I was admitted for a surgical process, apparently simple, but due to a medical mistake, I got the risk of having cancer cells spread out on all my organs. In April of 2006, after some alternative treatment and a change of medical team, I was admitted for conventional surgery. It took me 60 days to recover, but the doctors decided, for prevention, that I should take 6 sessions of chemotherapy. So, each 21 days, the sessions took place. After each session comes muscle pain, sleepless nights and crying with pain. I could not explain from where or how came these pain. I had to take strong medicines due to the pain and to get sleep.

At a QUESNET meeting, my husband knew about all the wonderful benefits of Bio Disc and told this to me, but I could not appreciate it well because I had tested so many products before. Thank God, my husband believed in it and bought two Bio Discs. He arrived home with such a beautiful box as it was the most precious jewel that someone could receive. We started the tests, placing the Bio Disc under my mattress. I could sleep all night long, **without medicines and without pain**. My husband put the other Bio Disc to energize a big bottle of water. I started to use Bio Disc on my back. From then on, I, who used to drag myself around with pain on my legs before, could now use high heels, walking normally without pain, I have my skin ruddy, with an excellent look. Today, drinking energized water, I am free of nausea and heartburn and I can eat better. My family and friends are so surprised with the changes in me. I AM ANOTHER PERSON . . .

Testimonial from Jane Lee Malaysia

To Whom It May Concern:

I was down with a swollen right ankle. No, I did not have a fall nor did I twist my ankle. The ankle had turned dark red in colour and very hot to touch. I couldn't walk.

All the antibiotics and painkillers are of no help either. Then, I was introduced to BIO ACTIVATED WATER

Day 1

Started drinking Bio Activated water. Finished 3 liters of it and had to practically drag myself up on crutches to the washroom. Even though it was so painful to get up many times for those trips to the washroom, I still continued to consume them as I have heard of this miracle water

Day 2

Same as Day 1. No visible changes.

Day 3

Woke up to throbbing pain. When I wanted to get down from bed, the pain was excruciating. (Doc reminded me to raise my foot so as to reduce the swelling. Hence I've been resting in bed all the time!)

The swelling from my ankle has subsided BUT has since "traveled" down to the front towards the toes area.

This part of the foot is now swollen and painful. When I put my foot down, the pain was horrible. Felt like there was a ball under this part of the foot. Pain worsened as time passed on. Kept drinking lots of Bio Activated water. It was already past midnight and I couldn't sleep due to this throbbing pain. Enough!! I've endured this pain the whole day!! Finally, I reached out for some painkillers.

Day 4

Wow!! No pain already! The dark red colour has turned a lighter shade. I'm so happy, it's like a miracle.

Your Sincerely,

Jane lee
